SOLARUNITED

THE GLOBAL INTEGRATED PV TECHNOLOGY &
INDUSTRY ASSOCIATION

We're Driving the Future of Integrated PV

SOLARUNITED

THE GLOBAL INTEGRATED PV TECHNOLOGY & INDUSTRY ASSOCIATION

SOLARUNITED is a non-profit, non-governmental organization that aims to promote solar energy globally and organize networking opportunities for solar professionals.

OUR VISION

- We work together with our supporters to drive their growth globally and elevate their reputation in the integrated photovoltaic industry.
- Among all the benefits of Photovoltaic (PV), the most important is that it is a truly renewable energy source.
- We support all efforts to increase PV and to decrease the carbon footprint with PV technology worldwide.
- This includes optimization of productivity, efficiency and longevity.
- Our goal is to track & trace the quality at each production step for every production line.
- We promote local production for a minimal carbon footprint and independence in supply.

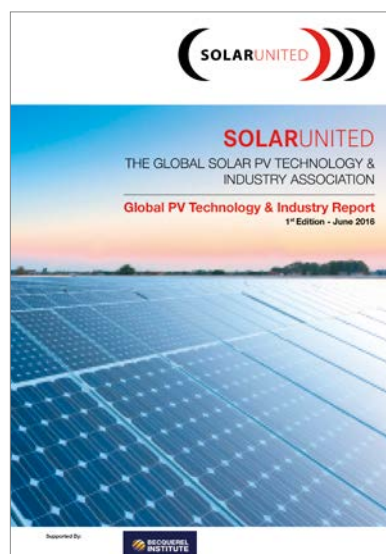

WHO ARE WE?

SOLARUNITED serves the interests of PV equipment manufacturers, module producers, project developers, financiers, consultants, service providers – the complete value chain, and more!

- **PV Matrix**

The ETIP **PV Matrix** is a joint initiative led by the European Technology and Innovation Platform for PV. It's an innovative solar supply chain online tool, that illustrates and links the complete PV Value Chain in Europe. The ETIP **PV Matrix** will be the meeting point for all industry stakeholders to exchange cutting-edge information and raise their knowledge about the future of the manufacturing industry in the European PV sector

- **PV Technology Reports**

The rapidly developing global photovoltaic market constantly demands technology that is more efficient and cost-effective to compete against conventional energy sources as well as other renewables. **SOLARUNITED** is working on Technology Reports covering data about the latest development of Solar.

- **VIPV ALLIANCE**

We're Driving the Future of Integrated PV
SOLARUNITED is the secretariat of the **VIPV Alliance**. A workgroup to promote Vehicle-integrated Photovoltaics (VIPV) as a core source for electricity in transport.

Vehicle Integrated Photovoltaics (VIPV) is becoming a reality with the increasing need for electronic vehicles (EV's) to be powered by renewable electricity. VIPV designates the

mechanical, electrical, and design-technical integration of photovoltaic into vehicles. The PV modules blend seamlessly into the vehicle exterior and are connected to electric loads or the drive battery in electric vehicles. This is only the tip of the iceberg since PV-powered cars are being developed, and solar-produced green hydrogen is increasingly announced as a promising energy vector for the decarbonization of transport.

SERVING GLOBALLY – CONTRIBUTING LOCALLY

Sharing best practices, providing international insights, and working with local and global partners, SOLARUNITED provides our members with access to international resources and the ability to understand and engage in markets of all sizes. SOLARUNITED is also a founding member of the **Global Solar Council** and internationally **SOLARUNITED** partner with groups, R&D Centers, and leading exhibitions, to help foster global information sharing and collaboration.

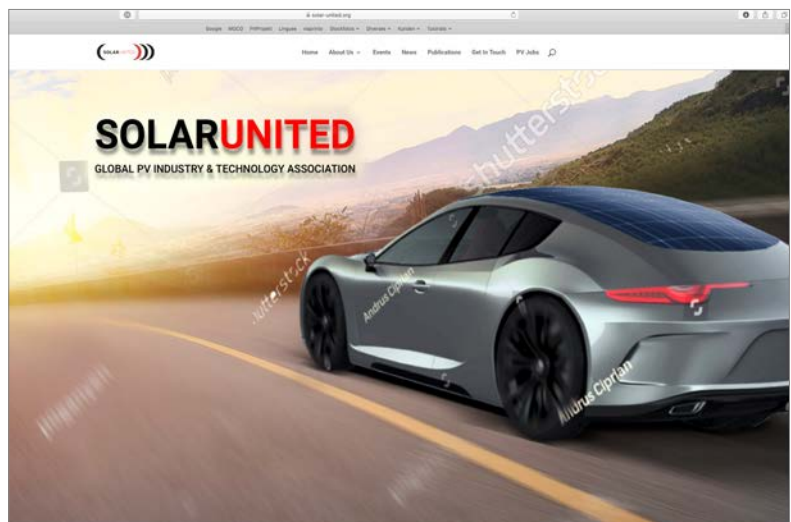

WELL CONNECTED

SOLARUNITED partners with leading organizations including ETIP-PV, the Global Solar Council, Becquerel Institute, and the largest Scientific PV Conference EU PVSEC. **Meet your Target Group.**

OUR SERVICES

As a **SOLARUNITED** supporter, you encounter considerable benefits with access to key decision-makers, exposure to timely and critical issues, as well as expert analysis to help your business or organization succeed in the worldwide solar industry.

- **Brand Strategy**
SOLARUNITED is a networking platform to discover trends, meet people, and recognize factors that drive decisions in the integrated PV industry. We increase your visibility and connect you with your target group.
- **Events**
SOLARUNITED offers you in-person and virtual events where you meet the right people. Use our Webinar Platform and talk of the global PV community.
- **Press & Communications**
SOLARUNITED provides the latest news from the market and can distribute your message worldwide.
- **Job Portal**
SOLARUNITED extends access to the Solar Technology Job Board to recruit the PV specialists that are right for your business.
- **Video Platform**
SOLARUNITED video platform offers the opportunity to share your company's latest news, and videos with our global audience.

SOLARUNITED

THE GLOBAL INTEGRATED PV TECHNOLOGY & INDUSTRY ASSOCIATION

MEMBERSHIP

Membership in **SOLARUNITED** is designed to fit your specific needs.

Basic Membership – € 3.000 (Regular)

Silver Sponsoring Membership – € 6.000

Sponsoring Members can submit advertorials in the **SOLARUNITED** newsletters and initiate work groups.

Gold Sponsoring Membership – € 9.000

Sponsoring Members can access all **SOLARUNITED** activities.

Platinum Governance Membership – € 15.000

Sponsoring Members can access all **SOLARUNITED** activities and can serve on the Board of Directors in a leadership role.

VIPV Founding Member

If you are interested to become a founding member of VIPV Alliance please get in touch with ekus@ipvea.com.

Let's talk about what **SOLARUNITED** can do for you.

Management/Marketing:

Bernhard Krause
